

Sea Days Help

Introduction

Sea Days is used to calculate how many days of sea service you have.

Sea service is required to meet the qualification standards under the International Convention on Standards of Training, Certification and Watchkeeping (STCW). For further details about STCW refer to the International Maritime Organisation's website or one of the maritime education websites. For example EduMaritime.

How the App Works

There are four main steps required to track your sea days:

1. Add the ship on which you are working.
2. Add the job you have on the ship.
3. Record what the ship is doing. Specifically the app needs to know when the yacht is at sea.
4. Record when you are not on the ship.

Based on this information the app works out how many days of sea service you have.

Add the Yacht

1. Press the hamburger menu on the top left of the main screen.
2. Press the Yachts menu item.
3. Press the round + button at the bottom right of the screen.
4. Enter the ship's name.
5. Enter the ship's International Maritime Organisation (IMO) number. It should be seven digits.
6. Enter the ship's length.
7. Press the save icon on the top right of the screen.
8. The ship will be added to the list of ships.
9. Press the back arrow to return to the main screen.

To change the yacht information press the pencil icon on the Yachts screen. To remove the yacht completely press the red bin icon on the Yachts screen.

Add your Job

Before you can add a job, you must have added at least one ship.

1. Press the hamburger menu on the top left of the main screen.
2. Press the Jobs menu item.
3. Press the round + button at the bottom right of the screen.
4. Enter the position the job has on the ship.
5. Select the ship the job is on.
6. Enter the start date for the job.
7. Enter the end date for the job if known.
8. Enter any notes you want to add.
9. Press the save icon on the top right of the screen.
10. The job will be added to the list of job.
11. Press the back arrow to return to the main screen.

To change the job information press the pencil icon on the Jobs screen. To remove the job completely press the red bin icon on the Jobs screen.
